

LOUDBON:

Monday : : : : : Jan. 23, 1854.

Gov. Johnson has issued his proclamation directing an election to be held in the counties composing the first Congressional District, for a member of Congress to fill the vacancy occasioned by the death of Hon. D. Campbell. The election is to take place on the 9th of March.

Mr. Mitchell's Position on the Slavery Question.—The following explicit announcement appears in the second number of JOHN MITCHELL'S paper, "The Citizen":

"We are not abolitionists.—No more abolitionists than Moses, or Socrates, or Jesus Christ. We deny that it is a crime, or a wrong, or even a peccadillo, to hold slaves, to buy slaves, to sell slaves to keep slaves, to their work by flogging or other cruel coercion. 'By your silence,' says Mr. Haughton, 'you will become a participant in their wrongs.' But we will not be silent when occasion calls for speech; and as for being a participant in the wrongs, we, for our part, wish we had a good plantation well stocked with healthy negroes in Alabama."

Benton in the House.—The St. Louis Republican says:

Col. Benton looks lost and humbled in the House. He comes in of a morning, sits an hour or two, and then leaves. As you may have seen, he has generally voted with the administration, and been quite silent since that time. He has made several efforts to obtain the floor, but his slow, solemn, dignified Senatorial rising is not fast enough for the House, and about twenty "Mr. Speakers" have reached the ears of the chair before he is heard; and then he is compelled to take his seat with the same silent dignity with which he arose. It is clear the House is unsatisfied with him, and he to it.

Pork Packing.—In the West the only item of interest is the pork packing. At Cincinnati the number slaughtered is now equal to that of last year, but at Louisville the excess is 100,000. At Louisville, Madison and Cincinnati the excess at the close of the season will be about 120,000; at St. Louis, Nashville and the Lake ports, the amount will be about the same as last year. What the extent of country packing is, it is, of course, impossible to say, but we think it would be safe to calculate an excess of the whole West of 150,000 over last season; and as the hogs this year are from ten to twenty per cent. heavier than last year, it will be seen that the excess, in pounds, will be very heavy.

The Grand Division of East Tennessee of the Sons of Temperance, was organized in this city on yesterday, (the 19th inst.), by the Grand Worthy Patriarch (E. R. Osborne) and the Grand Scribe (Hugh Carroll) of the Grand Division of Tennessee. The following officers were elected to serve during the current year: Saus. N. Fain, G. W. P.; W. W. Neal, G. W. A.; Jas. O. Patton, G. S.; James Jones, G. T.; J. W. Carter, G. C.; Rev. W. H. Bates, G. Chaplain; C. A. Rice, G. Sentinel. There is a very respectable number of delegates in attendance from different divisions in East Tennessee, and the number would probably have been greater had the weather been more favorable. The new Temperance Hall was dedicated on Wednesday. [Knoxville Register, 20th.]

PACIFIC RAILROAD.—The following is the select committee appointed by the President of the Senate, on the motion of Mr. Gwin, to report so much of the President's message as relates to the subject of a National Road from the Mississippi to the Pacific Ocean. The National Intelligence says of it: "It is certainly a very able committee, unequalled almost by any other which we remember."

Mr. Gwin, of Cal., Chm. Mr. EVERETT, of Mass. Mr. BROWN, of Indiana. Mr. TOWN, of N. Y. Mr. RICE, of Texas. Mr. GERRY, of Mo. Mr. DOUGLAS, of Illinois. Mr. EVANS, of S. C. Mr. BELL, of Tennessee.

SCIENCE—ITS PROGRESS. Science has been defined to be knowledge reduced to order; that is, knowledge so classified and arranged as to be easily remembered, readily referred to and advantageously applied.

The term science applies to man's method of thinking, or his observations of the external world; it comprehends more of the physicist, but like all else that has ever occupied man's memory, it had its origin in nature, in human nature, and must therefore, correspond with the progress of the intellectual development of the human race. Science then, is that view which the mind takes of the system of things; it is not a reality in itself considered, but merely the form of human thought. By progression, it is found that all science has been developed, that is, all truths have become apparent precisely in corresponding degrees as the human mind has been able to comprehend them. Its consideration becomes one of those causes which inspire the mind and impel it forward in its researches after truth. If then, all science be the result of human intellectuality, then what may we not anticipate as the glories of the still unfolding future? What wonders, what grand compensations, have already rewarded the toil of the ardent enquirer who has waited patiently at the portals of Nature's temple!

Let us see what what exactness, the progression of Science has corresponded with the developments of mind, and the correlating signs of improvement which the stream of time has thrown up as the race have passed along its shores.

1. The early ages, Logic, which took cognizance of identity and equality. It may be said to be the original and universal form of science, and therefore the first, because its progress included reasoning. Intellectuality, therefore, was the beginning of all science, for as soon as the human mind began a process of reasoning, the science of Logic was founded; and hence I say, that this preceded, and indeed, comprehends all other systems known under the name of science.

2. Succeeding ages developed Algebra, Geometry, and Mathematics. Men began to take cognizance of space, which carried them forward into a knowledge of Dynamics and the forces of Nature.

3. Still progressing, they acquired a knowledge of Mechanism, Force, Hydrodynamics, Pneumatics, Acoustics, Optics, Electricity and Magnetism. During this period, man also obtained some knowledge of the imponderable Fluids, Atmosphere and Chemistry.

4. The preceding steps brought man to a knowledge of the vegetable kingdom and physiology, vegetable and animal; the phenomena of life and vitality.

The following, or present ages usher him into the science of human nature, viz: Phrenology, Psychology, Man's spiritual nature, and his approaching destiny, including social reform, fraternity, political economy, and eternal progression.

New-York Markets.

Baltimore, January 17, 9.5 P. M.—Cotton was active in New York on Tuesday and 1750 bales changed hands. CORN was lower. FLOUR declined 12 cents per bbl. SPIRITS OF TURPENTINE was worth 62 cents per gallon.

Baltimore Markets.

Baltimore, January 17, 6.50 P. M.—8,000 bbls. of FLOUR changed hands in Baltimore on Tuesday, at \$1.50 per bbl. Yellow CORN was quoted at from 77 to 80 cents per bushel.

Baltimore, Jan. 16.—Seizure of the Europa. The British mail steam ship Europa has been seized by the officers of the Customs, two individuals connected with it having been detected in smuggling lace.

Baltimore, Jan. 16.—Rumored Changes in the Cabinet.—It is rumored that Mr. Guthrie is about to resign, and that Mr. Cushing will take his place. Mr. Breckinridge, it is also said, will have a seat in the Cabinet.

Georgia Senator.

Three ballots were had in the Georgia Legislature on Monday for U. S. Senator. On the first ballot 33 votes, McDONALD, 78, WARD, 15, Cobb, 11, and 21 scattering. On the third ballot the vote was 22; McDONALD'S 63, WARD'S 22, Cobb's 19, and scattering 12. The number of votes was 218.—[Char. Mercury.]

NEW-ORLEANS, January 14, 1 P. M.—Parties are waiting to read the Baltic's accounts in the evening papers, and we hear of no sales of Cotton of note. Stock of Flour very light, and the only sale reported 900 bbls. St. Louis, in store, at \$7. Old Corn is held at 70c. Prime Coffee 12c (12c). Freight. A ship taken for Havre yesterday at 11c.

NORFOLK, VA., JAN. 16.—Prices of Grain, Flour and Cotton are well maintained. Cotton 91@92c; Flour 6.50@6.55; Rice 41@42c; Corn 70@71c; for yellow, and 66@67c; for white; Bacon, hog round, 9@9c; Hams 12c.

ERIE, JAN. 13.

A telegraphic despatch directed to the Mayor of this city from Hon. JAMES THOMPSON, now in Harrisburg, and who is counsel for the people of Erie, was received in this place to-day, ordering suit to be brought against the United States Marshall and his Aids, in the name of each prisoner who had been arrested, for false imprisonment. The Marshall and aids were arrested by the sheriff, and on refusing to give bail were committed in default to the county jail. The parties, however, were afterwards released from jail on procuring bail in the sum of \$5,000 in the suit of each plaintiff.

Later from Europe.

ARRIVAL OF THE EUROPA.

New-York, Jan. 16.

The British Mail steamship Europa has arrived at New York from Liverpool, which port she left on the 31st ult.

The Liverpool Markets.—The demand for Cotton during the week ending the 30th ult., was good and prices were stiffer, especially for the finer qualities. The sales since the departure of the Canada on the 24th ult., comprised 45,000 bales, of which 30,000 bales of all descriptions to the Trade. Fair Orleans was quoted at 63d. Middling Orleans at 64d. and Middling Uplands at 64d. The excess in the stock is 50,000 bales over the estimates.

Flour was in good demand, and had advanced 1c. Western Canal being quoted 38c, 3rd, and Ohio at 40c, per bbl. of 100 lbs. Corn had advanced 1s. White nettings 47s. per 400 lbs. White Wheat was quoted at 11s. 3d. per 70 lbs. Lard had slightly declined. Provisions were dull.

The London Money Market.—The Bank of England had not increased the rate of interest. Consols had declined, and were quoted at 93 1/4—ex-dividend. The transactions in American securities were small.

The Havre Cotton Market was unchanged, and the sales for the week ending the 27th ult., comprised 2500 bales.

European Intelligence.

There is nothing important from the East by this arrival.

Everything on the Danube was quiet. The Russians, however, were evidently concentrating their forces for an attack on Kalafat.

The treaty between Russia and Persia was ratified at St. Petersburg on the 15th of December.

The Persians were daily expected to attack Bagdad.

Ati Pacha had been repulsed in Asia. The Turks were retreating from Russian Armenia.

The combined fleets were still in the Bosphorus.

The Turks had raised the sieges of Okaska and Alexandropol.

The Four Powers had sent a note to the Porte, demanding an armistice.

The British agent has renewed his diplomatic relations with Persia.

It was rumored in Paris on the 29th ult., but not generally believed, that Mr. SUTEL, our Minister to Spain had fought a duel with the Duke of Alcazar, and not been killed.

Sweden and Denmark were forming an armed league against Russia.

The strike at Preston is still unsettled.

LOUIS NAPOLEON has abolished restrictions on the imports of Cotton from England.

ceived a dispatch, announcing the death of Mr. SUTEL in a duel. The stock of CORN at Liverpool amounts to 597,500 bales.

MARRIED.

On the 4th inst., in Bradley county, Tenn., by Rev. T. K. Munsey, Mr. NAPOLEON J. HUFFAKER, of Jefferson county, to Miss MARGARET T. BATES, of the former place.

On the evening of the 1st inst., at East View, Bledsoe county, Tenn., by Rev. D. Fleming, Rev. JOHN BORING, of the Holston Conference, to Miss LARA, A. SCROFIELD, of the above named place.

Yours respectfully,

ALLEN & DUNLAP,

Commission Merchants, Macon, Ga.

From Augusta Constitutionalist and Republic.

AUGUSTA MARKET.—Jan. 18.

Greenery.—There is a fair amount of business doing for the season of the year in the Greenery. Our Merchants have on hand good and well selected stocks, and the river is now in good steamboat order, every day fresh arrivals are coming to hand.

Bacon.—There is little or no demand for this article, and it is dull of sale. Sales of choice Tennessee Sides are still making by the quantity, at 8 cents. Retailing in small lots, at 8 1/2@9. Lard, good is selling at 9 1/2@10 cents, and choice in small parcels at 11 cents.

Corn.—The supply is still moderate, and holders are very firm at 75 cents by the quantity—some holders are asking 77—sales have been made in small lots at the former figure. Buyers, however, do not seem disposed to pay over 70 cents. Retailing from stores at 80@87, bags included. Oats. There is a fair demand for this article, and holders refuse to sell under 65 cents, by the quantity, bags included. Retailing at 70@75. Peas are in demand at 75 cents by the quantity. Retailing from stores at 80@87.

Molasses.—A lot of 10 hds. new crop Cuba has come to hand, of which 50 hds. have been sold at the depot at 2 1/2. Last sales of old crop were at 2 1/4. Retailing from stores at 25 to 27. The demand for New-Orleans is limited, and by the quantity it is selling at 28 and 29, retailing from stores at 30 and 33. The demand for both Cuba and New Orleans is confined to immediate want.

Coffee.—Holders are still very firm, as the prices at which they were selling is about the same as is paid for the article in New York.—Stock light. We quote Rio at 12 1/2 to 13; principal sales at the latter price.

Flour.—There continues to be a good export demand for this article, and our city mills are kept busily employed, and find ready sale for all they can grind, at \$4 for superfine in bags, and \$4 1/2 in bbls. For Family 7 1/2@8 per bbl.—Country is worth 6 to \$4 and commands, \$7 in bags and barrels.

Wheat.—There is a good demand for Wheat, and Red meets with ready sale at 75 cents @81 and prime White at \$1.10@1.25 per bushel. None in market.

Beef and Hogs.—Good Beef on the foot is worth 4 1/2 to 5 cents. Hops.—Sales at about 4 1/2 cents. Nett, in market, they are selling at 6c. Steaks are still scarce, and in demand, and a lot of fancy would command a good price.

Bagging.—Most holders are asking from store, by the piece or bbl., 12 cents. There is no new selling at 9 1/2 to 10 cents. There is no lute in market, and we leave our quotations blank.

Fish.—Holders are still stiff in their asking prices, and refuse to sell under 43 to 45c, by the quantity.

Salt.—Several small lots have come to hand this week, and sales have been reported to us of about 2500 sacks in lots, at prices ranging from 2 1/2 to \$2.25 from wharf, principally at 2 1/2 to \$2.20. From stores it is retailing at \$2.50 per sack. The stock is still light, but in anticipation of further supplies, buyers are purchasing only for immediate want.

Hay.—Stock good, demand limited. Northern worth about \$1.50, and eastern \$1.75 by the quantity.

Line.—Good stock on hand, with a limited demand. Last sale from wharf \$1.50 per bbl. Selling from stores by the single bbl. or small quantity, at \$1.70 to \$1.80.

Dried Fruit.—Stock on hand, moderate, and prices tend upwards.

Feathers.—Most with ready sale. New York and other Northern cities at 1 per cent. prem. for Sight Drafts.

Freights.—We now quote the rate to Savannah at 37 1/2 cents per bale. To Charleston the Railroad rate is \$1 per bale.

From Charleston Mercury.

CHARLESTON MARKET.—Jan. 20.

Bacon.—The demand still exclusively of a retail character. The stock of old is gradually disappearing, and prices for the remaining are quite nominal. Holders of new descriptions of recent arrivals, realize, in small quantities, from \$11.25 to 12 for sides, and \$1.80 for Shoulders. Sales are however, slow.

Salt.—We have to report the arrival during the week of near 15,000 sacks. Liverpool, which being thrown on the market in quick succession, caused a sudden and great decline of the article. The market opened with sales from the cargo at \$2 per sack—falling from that to \$1.75—holders, however, continued to press the market, prices continued downwards until sales were made at \$1.25—the market losing in an unsettled state.

Hay.—The receipts of the week have been limited to about 300 bales from River, which were taken by dealers at \$1.75 per 100 lbs.

Flour.—We notice no material change in the market since our last. The supply continues apparently adequate to the demand, which likewise as formerly continues exclusively confined to bakers and retail dealers. Price in consequence remain unchanged—\$6 1/2 a 1-2 in bags, and \$5 1/2 a 7 in bbls. as in quality.

Grain.—We notice no change in the article of Corn. A cargo of about 5000 bushels North Carolina—the only one received in the course of the week—sold in the neighborhood of 60 cents. Small parcels of Western, in bags, by Railroad, find purchasers at from 85@87 cents a bushel of 56 lbs., bags included, according to quality and terms.

Oats and Peas.—There have been no arrivals of either. We however continue former quotations as probably the nearest criterion of the market under existing circumstances.

ADVERTISER OFFICE.

Chattanooga, Jan. 21, 1854.

River is now at high tide and still rising.—Several flat boats are at our wharves, and corn, oats and wheat, are beginning to arrive in quantities to supply the demand. The grain market shows a material advance.

The stock of groceries on hand large with good demand.

The grain market is firm with few changes.

Bacon.—Little in market proper figure 8.

Cotton.—The season is opening and large shipments made. 1200 bales come up this week.

Corn is selling readily at 45 cents without sacks. Two lots sold yesterday at the wharf, at 54@55 cents sacks included. 15000 bushels shipped to Charleston this week.

Peas—in demand all the time; at 38@40. Scarce.

Fruit—apples, dried, 60 to 75 cents pealed; Green, 50@60 cents. Peaches, unpeeled, \$1 10; peeled \$2 00.

Ginseng—dull, at 20@23 cents.

Flour—per sack, \$2 75@3 00. Lenoir's family, \$3 25.

Lard—in demand, good worth 9@10 cents. Molasses—re-bailed in barrels, 40 cents.

Oats—active at 45@50 cents—few shipments are making.

Rye—70 cents.

Salt—King's none; Liverpool none.

Sugar—in hds., 6; in bbls., 7 cents, prime article.

Wheat—90 cents.

Whiskey—35 cents. Magnolia 37 1/2.

Good Butter in demand, 12 1/2@20c.

RIVER REGISTER.

LOUDBON, Jan. 23d.

The River has been up about 25 feet above low water mark, but has fallen several feet. It has been rather too high for Boating, and a number of Boats have been laying up at different points. We give the following list of arrivals of Flat Boats. It will be seen that most of them are from Washington country. They have sold out here at prices ranging from \$4.25 to \$4.50 per barrel for Flour. We expect to be able to notice the arrival of a much larger number next week, as we understand the largest number are yet behind.

R. M. Bayless, Washington country, with five Boats, with 900 barrels of Flour, and 1200 bushels of Wheat, sold for shipment at this place, over the E. Ten. & Ga. Railroad.
